Public Schools: The Facts

Dr. David C Berliner, Regents' Professor Emeritus of Education at Arizona State University

Please join us as the United Parent Council welcomes back one of its favorite guests, Dr. David C. Berliner. He will engage the audience with personal stories as well as compelling research dispelling the many myths and lies that exist regarding public education here in Arizona and in the nation as a whole. He will touch on the impact of standardized testing, how out of school factors affect in school performance, school rating systems, charter schools and school vouchers. Dr. Berliner's focus has always been on "what is best for children" and how we can address those powerful out of school factors that limit student outcomes. Don't miss this amazing presentation by a man who is not afraid to speak the truth about public education in America! [See Page Two]

UPC brings parents from across the district together to enhance the PV Schools experience.
